# APEX: Redefining Form. Engineering the Extraordinary.

Introducing APEX – where architectural vision meets precision engineering.

At APEX, we redefine the boundaries of modern fenestration with a curated collection of custom-shaped aluminum windows and doors designed for the boldest of spaces. From gravity-defying off-axis pivot doors and sweeping curved sliding systems, to monumental ultra-large sliding panels and seamless lift-and-slide solutions, every product in the APEX range merges minimalist aesthetics with structural innovation.

Engineered for performance, crafted for elegance, APEX empowers architects and homeowners alike to transform unconventional designs into reality—without compromise.

## CURVED SLIDING DOOR

Experience the perfect synergy of fluidity and precision. Part of our signature SLIMLINE system, the APEX Curved Sliding Door features ultra-slim profiles and expansive glass surfaces that vanish into the landscape. Engineered to master both extreme tight bends and sweeping grand curves, it redefines the boundaries of architectural transparency.

## Basic Data

Maximum Height: 4300mm

Minimum Radius: 450mm

Maximum Size of Panel: 18m<sup>2</sup>

Maximum Weight: 800kg

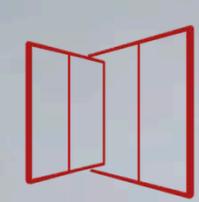

Specification of Thermal Break Bar: 53mm

Size of Glass Groove: 38mm

## OVERSIZED PANORAMIC SLIDING DOOR

Experience uninterrupted views with the Panoramic Sliding Door—a marvel of minimalist engineering. Featuring ultra-narrow aluminum frames, it achieves an industry-leading single-panel size of up to 24 m<sup>2</sup> without compromising on structural integrity, thermal performance, or smooth operation. Perfect for seamless indoor-outdoor living at scale.

## Basic Data

Maximum Height: 9000mm

Maximum Width: 6000mm

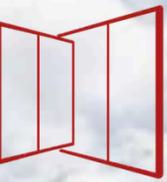

Maximum Size of Panel: 24m<sup>2</sup>

Maximum Weight: 1500kg

Specification of Thermal Break Bar: 60mm

Size of Glass Groove: 60mm

Frame Sightline: 20mm

## MOTORIZED LIFTING WINDOW

APEX Motorized Lifting Window Experience the ultimate light luxury with a seamless panoramic view. Merging cutting-edge automation with irresistible beauty, APEX transforms your space into a boundless sanctuary where nature and architecture coexist in perfect harmony. Elevate your perspective with effortless elegance.

## Basic Data

Maximum Height: 3000mm

Maximum Width: 4000mm

Maximum Size of Panel: 6m<sup>2</sup>

Maximum Weight: 300kg

Specification of Thermal Break Bar: 53mm

Size of Glass Groove: 38mm

## PIVOT DOOR

This system is engineered around a unique pivot axis, which can be strategically offset or perfectly centered to create distinct architectural statements and customized opening dynamics.

Designed to accommodate large-format glass, the UltraSlim series maximizes your field of vision, blurring the lines between spaces. This unique rotational opening provides vast, uninterrupted views and delivers a truly sophisticated, high-end experience.

## Basic Data

Maximum Height: 6000mm

Maximum Width: 4000mm

Maximum Size of Panel: 9m<sup>2</sup>

Maximum Weight: 800kg

Specification of Thermal Break Bar: 53mm

Size of Glass Groove: 38mm
